# Introduction

#### **Using This Book**

The 2019-2020 Fact Book, a publication of the Academic Affairs Office, is designed to provide reliable information about the Institution and the students. Information can be used to evaluate trends. By reviewing the College's historical development and current trends, we may better anticipate a plan for the future.

Every effort has been made to provide accurate and reliable information for each data element presented. Please note the dates on each table when utilizing this information. Data was compiled from internal enrollment reports, information provided by the Human Resources office, data submitted to the Oklahoma State Regents for Higher Education (OSRHE) Unitized Data System (UDS), data submitted to the Integrated Postsecondary Education Data Systems (IPEDS) and the Financial Fiscal Review and Long-term Viability Assessment conducted by Huron Consulting Group at the request of the OSRHE.

#### **About Eastern Oklahoma State College**

#### **College History**

Eastern Oklahoma State College was originally established in 1908 as the Oklahoma School of Mines and Metallurgy, offering degrees in mining engineering. Although closed during World War I, the school reopened in 1920 with trade and industrial education added to the curriculum. In 1924, the School of Mines added teacher training and extension courses, but with the decline of local area mining by then well advanced, the school dropped mining engineering. Then in 1927, the school won a long overdue name change to Eastern Oklahoma State College and with the change came an added mission of pre-college level instruction. In 1941, the again renamed Eastern Oklahoma State College Agricultural and Mechanical College moved under the control of the State Board of Agriculture as a junior college. Finally, in 1972, the legislature settled on the name Eastern Oklahoma State College and created a separate board to govern the institution. Since that time, Eastern has been a comprehensive community college providing instruction in a wide range of curricula.

#### **Accreditation and Memberships**

Eastern is officially accredited by The Higher Learning Commission of the North Central Association (since March 1954), the State Regents for Higher Education, the Accreditation Commission for Education in Nursing (ACEN), the Society of American Foresters, the Commission on Accreditation for Respiratory Care (COARC), and Oklahoma State School Accrediting Agencies. Eastern's memberships include the American Association of Junior Colleges, the Council of North Central Junior Colleges, and the Oklahoma Association of Community Colleges.

#### Eastern Oklahoma State College Mission Statement

The mission of Eastern Oklahoma State College is to provide the educational tools and environment to facilitate student learning through its associate degrees and other academic programs which effectively prepare graduates to enter their chosen vocational field or to continue their educational experience through baccalaureate degree programs. It is also the mission of the College to engage in educational programming and related activities that promote regional economic and community development.

#### **Vision Statement**

Eastern Oklahoma State College will continue to be a dynamic institution known for academic excellence, accessibility, innovation, cultural programming and service to students and the community.

#### **Core Values**

ACADEMIC EXCELLENCE - Eastern expects and maintains high educational standards consistent with the needs of the students, region, and changing workforce. Our faculty and staff are committed to providing high quality educational opportunities and services in a student-centered environment. We strive for an environment of teamwork, cooperation, collaboration, innovation and creative problem solving for students, faculty and college staff.

RESPECT - Eastern values the students, faculty, administration and staff. We admire their diverse life experiences, appreciate their contribution to our learning community and encourage their individual, personal and professional development.

HONESTY AND INTEGRITY - Eastern upholds the highest ethical standards in striving for academic and professional integrity in all that it does. It endeavors to foster an environment of trust and responsibility in every aspect of the institution.

COMMUNICATION - Eastern promotes open, effective, and honest dialogue, feedback and active listening, flowing in all directions.

DIVERSITY - Eastern embraces and appreciates the importance of providing an educational environment that encourages individuality of students, faculty, staff and the communities it serves. Diversity is crucial in providing an atmosphere that enhances the educational experiences and celebrates differences among individuals.

SUCCESS OF ALL STUDENTS - Eastern strives to produce academic, athletic and student life programs that will encourage student success in an ethical and learner-centered environment.

SAFE & HEALTHY WORKING AND LEARNING ENVIRONMENT - Eastern is committed to protecting the safety and health of its students, staff and the people of the communities in which it serves.

COMMITMENT TO LIFE-LONG LEARNING - Eastern is committed to providing a learning organization that continually adapts and improves by evaluating its services in order to promote life-long intellectual and personal development among the students, faculty, staff and community it serves.

#### **Enrollment Growth**

Total enrollment fell 18% from the 2013-14 academic year (AY) to AY2018-19. As the state increases reimbursement for concurrent enrollment, EOSC will increase tuition revenue recorded from this population.

# IPEDS DATA FEEDBACK REPORT 2019

#### What Is IPEDS?

The Integrated Postsecondary Education Data System (IPEDS) is a system of survey components that collects data from about 6,400 institutions that provide postsecondary education across the United States

These data are used at the federal and state level for policy analysis and development; at the institutional level for benchmarking and peer analysis; and by students and parents, through the College Navigator (<a href="https://nces.ed.gov/collegenavigator/">https://nces.ed.gov/collegenavigator/</a>), an online tool to aid in the college search process. Additional information about IPEDS can be found on the website at https://nces.ed.gov/ipeds.

#### What Is the Purpose of This Report?

The Data Feedback Report is intended to provide institutions a context for examining the data they submitted to IPEDS. The purpose of this report is to provide institutional executives a useful resource and to help improve the quality and comparability of IPEDS data

#### What Is in This Report?

The figures in this report provide a selection of indicators for your institution to compare with a group of similar institutions. The figures draw from the data collected during the 2018-19 IPEDS collection cycle and are the most recent data available. The inside cover of this report lists the pre-selected comparison group of institutions and the criteria used for their selection. The Methodological Notes at the end of the report describe additional information about these indicators and the pre-selected comparison group.

#### Where Can I Do More with IPEDS Data?

Each institution can access previously released Data Feedback Reports from 2005 and customize this 2019 report by using a different comparison group and IPEDS variables of its choosing. To learn how to customize the 2019 report, visit this resource page <a href="https://nces.ed.gov/lpeds/Help/View/2">https://nces.ed.gov/lpeds/Help/View/2</a>. To download archived reports or customize the current Data Feedback Report, visit the 'Use the Data' portal on the IPEDS website <a href="https://nces.ed.gov/ipeds">https://nces.ed.gov/ipeds</a> and click on Data Feedback Report.

# **COMPARISON GROUP**

Comparison group data are included to provide a context for interpreting your institution's statistics. For this report, you specified a custom comparison group.

The custom comparison group chosen by Eastern Oklahoma State College includes the following 4 institutions:

- ▶ Carl Albert State College (Poteau, OK)
- ▶ Connors State College (Warner, OK)
- Murray State College (Tishomingo, OK)
- ▶ Seminole State College (Seminole, OK)

1) Admissions (only for non-open-admissions schools)

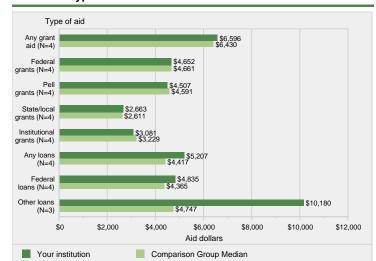

Figure 9. Average net price of attendance for full-time, first-time degree/certificate-seeking undergraduate students, who were awarded grant or scholarship aid: 2015-16 to 2017-18

NOTE: Average net price is for full-time, first-time degree/certificate-seeking undergraduate students and is generated by subtracting the average amount of federal, state/local government, and institutional grant and scholarship awarded aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees, books and supplies, and the average room and board and other expenses. For details, see the Methodological Notes. Figure 15. Retention rates of full-time, first-time degree/certificate seeking students, attendance status: Fall 2017 cohort

NOTE: Retention rates are measured from the fall of first enrollment to the following fall. Academic reporting institutions report retention data as of the institution's official fall reporting date or as of October 15, 2017. Program reporters determine the cohort with enrollment any time between August 1-October 31, 2017 and retention based on August 1, 2018. For more details, see the Methodological Notes. # **METHODOLOGICAL NOTES**

#### Overview

This report is based on data supplied by institutions to IPEDS during 2018-19 data collection year. Response rates exceeded 99% for most surveys. IPEDS First Look reports at <a href="https://nces.ed.gov/pubsearch/getpubcats.asp?sid=010">https://nces.ed.gov/pubsearch/getpubcats.asp?sid=010</a> provide some information on aggregate institutional responses. Furthermore, data used in this report are provisional level and may be revised for a limited time through the IPEDS Prior Year Revision system.

# **Use of Median Values for Comparison Group**

This report compares your institution's data to the median value for the comparison group for each statistic shown in the figure. If more than one statistic is present in a figure, the median values are determined separately for each indicator or statistic. Medians are not displayed for comparison groups with fewer than three values. Where percentage distributions are presented, median values may not add to 100%. To access all the data used to create the figures included in this report, go to 'Use the Data' portal on the IPEDS website at this provided link (https://nces.ed.gov/ipeds).

#### **Missing Statistics**

If a statistic is not reported for your institution, the omission indicates that the statistic is not relevant to your institution and the data were not collected. Not all notes may be applicable to your report.

## **Use of Imputed Data**

All IPEDS data are subject to imputation for total (institutional) and partial (item) nonresponse. If necessary, imputed values were used to prepare your report.

# **Data Confidentiality**

IPEDS data are not collected under a pledge of confidentiality.

#### Disaggregation of Data by Race/Ethnicity

When applicable, some statistics are disaggregated by race/ethnicity. Data disaggregated by race/ethnicity have been reported using the 1997 Office of Management and Budget categories. Detailed information about the race/ethnicity categories can be found at <a href="https://nces.ed.gov/ipeds/Section/Resources">https://nces.ed.gov/ipeds/Section/Resources</a>.

#### Cohort Determination for Reporting Student Financial Aid, Graduation Rates, and Outcome Measures

Student cohorts for reporting Student Financial Aid and Graduation Rates data are based on the reporting type of the institution. For institutions that report based on an academic year (those operating on standard academic terms), student counts and cohorts are based on fall term data. Student counts and cohorts for program reporters (those that do not operate on standard academic terms) are based on unduplicated counts of students enrolled during a full 12-month period.

Student cohorts for reporting Outcome Measures are based on a full-year cohort from July 1-June 30 for all degree-granting institutions.

#### DESCRIPTION OF STATISTICS USED IN THE FIGURES

Admissions (only for non-open-admissions schools)

#### Admissions and Test Score Data

Admissions and test score data are presented only for institutions that do not have an open admission policy, and apply to first-time, degree/certificate-seeking undergraduate students only. Applicants include only those students who fulfilled all requirements for consideration for admission and who were notified of one of the following actions: admission, non-admission, placement on a wait list, or application withdrawn (by applicant or institution). Admitted applicants (admissions) include wait-listed students who were subsequently offered admission. Early decision, early action, and students who began studies during the summer prior to the fall reporting period are included. For customized Data Feedback Reports, test scores are presented only if scores are required for admission.

#### Student Enrollment

#### **Enrollment Counts**

12-month Enrollment captures a cumulative unduplicated headcount of enrollment over the full 12-month period beginning July 1 and ending June 30. In contrast, Fall Enrollment captures number of students enrolled on a particular date in the fall. Fall enrollment is often referred to as a "snapshot" of an institution's enrollment at a specific time.

#### FTE Enrollment

The full-time equivalent (FTE) enrollment used in this report is the sum of the institution's FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component). Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). See "Calculation of FTE Students (using instructional activity)" in the IPEDS Glossary at https://surveys.nces.ed.gov/ipeds/VisGlossaryAll.aspx.

## Total Entering Undergraduate Students

Total entering students are students at the undergraduate level, both full- and part-time, new to the institution in the fall term (or the prior summer term who returned in the fall). This includes all first-time undergraduate students, students transferring into the institution at the undergraduate level, and non-degree/certificate-seeking undergraduates entering in the fall. Only degree-granting, academic year reporting institutions provide total entering student data.

# **Completions**

#### Completions and Completers

Completions collects data on undergraduate and graduate completions and completers in a 12-month period. Completions are the counts of postsecondary awards granted where each award reported once but multiple awards may be reported for one recipient. Completers are the counts of students granted postsecondary awards. The count of completers is collected in two ways. The first way counts all completers, while the second way counts completers by award level (e.g., number of associate's completers, number of bachelor's completers).

#### **Charges and Net Price**

# Average Institutional Net Price

IPEDS collects data to calculate average net price at each institution for two groups of undergraduate students: those awarded grant aid and those awarded Title IV federal aid.

Average net price is calculated for full-time, first-time degree/certificate-seeking undergraduates who were awarded grant or scholarship aid from the federal government, state/local government, or the institution anytime during the full aid year. For public institutions, this includes only students who paid the in-state or in-district tuition rate. Other sources of grant aid are excluded. Average net price is generated by subtracting the average amount of federal, state/local government, and institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees, books and supplies, and the average room and board and other expenses.

For the purpose of the IPEDS reporting, aid awarded refers to financial aid that was awarded to, and accepted by, a student. This amount may differ from the aid amount that is disbursed to a student.

#### **Student Financial Aid**

## Financial Aid Recipients and Amounts

Student Financial Aid collects the counts of undergraduate students awarded different types of financial aid and the total amounts of aid awarded. The average dollar amount of aid awarded is then calculated. In addition, Student Financial Aid collects counts of full-time, first-time undergraduate student awarded aid and amounts of aid, and counts of undergraduate and graduate students receiving military educational benefits.

### **Military Benefits**

#### Military Benefits

IPEDS collects data on two military educational benefit programs - Post 9/11 GI Bill and Tuition Assistance.

The Post 9/11 GI Bill is a federal education benefit for veterans, who served on active duty after September 1, 2001. This benefit provides up to 36 months of education benefits for the following college costs: tuition and fees, books and supplies and housing. The tuition and fees benefit payment is made directly to the postsecondary institution; whereas, payments for books, supplies, and housing are sent to the student.

The Tuition Assistance Program covers the tuition and course-specific fees of active, eligible service members. The benefit is directly paid to the institution by the service member's Armed service.

#### Retention, Graduation Rates, and Outcome Measures

#### Retention Rates

Retention rates are measures of the rate at which students persist in their educational program at an institution, expressed as a percentage. For four-year institutions, this is the percentage of first-time bachelors (or equivalent) degree-seeking undergraduates from the previous fall who are again enrolled in the current fall. For all other institutions this is the percentage of first-time degree/certificate-seeking students from the previous fall who either re-enrolled or successfully completed their program by the current fall. The full-time retention rate is calculated using the percentage of full-time, first-time degree/certificate-seeking undergraduates, while the part-time rate is calculated using the percentage of part-time, first-time degree/certificate-seeking undergraduates.

#### Graduation Rates and Transfer-out Rate

Graduation rates are those developed to satisfy the requirements of the Student Right-to-Know Act and Higher Education Act, as amended, and are defined as the total number of individuals from a given cohort of full-time, first-time degree/certificate-seeking undergraduates who completed a degree or certificate within a given percent of normal time to complete all requirements of the degree or certificate program; divided by the total number of students in the cohort of full-time, first-time degree/certificate-seeking undergraduates minus any allowable exclusions. Institutions are permitted to exclude from the cohort students who died or were totally and permanently disabled; those who left school to serve in the armed forces or were called up to active duty; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on an official church mission.

A further extension of the traditional Graduation Rates (GR) component which carries forward 100% and 150% graduation rates data previously reported in the GR component is the Graduation Rates 200% (GR200) component, which requests information on any additional completers and exclusions from the cohort between 151% and 200% normal time for students to complete all requirements of their program of study.

Transfer-out rate is the total number of students from the cohort who are known to have transferred out of the reporting institution (without earning a degree/award) and subsequently re-enrolled at another institution within the same time period; divided by the same adjusted cohort (initial cohort minus allowable exclusions) as described above. Only institutions with a mission that includes providing substantial preparation for students to enroll in another eligible institution are required to report transfers out.

## Outcome Measures Data

Alternative measures of student success are reported by degree-granting institutions to describe the outcomes of four degree/certificate-seeking undergraduate student groups: First-time, full-time (FTFT); First-time, part-time (FTPT); Non-first-time, full-time entering (NFTFT); and Non-first-time, part-time entering (NFTPT). Additionally, each of the four cohorts collects data on two subcohorts: Pell grant recipients and non-Pell grant recipients. These measures provide the 4-year, 6-year, and 8-year award rates (or completions rates) after entering an institution. NCES calculates award rates by dividing a cohort's or subcohort's adjusted cohort into the number of total awards at 4-year, 6-year, and 8-year status points.

The initial cohort can be revised and take allowable exclusions resulting in an adjusted cohort. Institutions are permitted to exclude from the initial cohort students who died or were totally and permanently disabled; those who left school to serve in the armed forces or were called up to active duty; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on an official church mission.

The highest award and the type of award (i.e., certificate, Associate's, or Bachelor's) are reported at each status point. For students who did not earn an undergraduate award after 8-years of entry, the enrollment statuses are reported as either still enrolled at the institution, or subsequently transferred out of the institution. Unlike the Graduation Rates data, all institutions must report on a full-year cohort (students entering July 1 of one year to June 30 to the next) and on their transfer out students, regardless if the institution has a mission that provides substantial transfer preparation.

#### **Finance**

#### Core Revenues

Core revenues for public institutions reporting under GASB standards include tuition and fees; government (federal, state, and local) appropriations and operating and nonoperating grants/contracts; private gifts, grants, and contracts (private operating grants/contracts plus gifts and contributions from affiliated entities); sales and services of educational activities; investment income; other operating and nonoperating sources; and other revenues and additions (capital appropriations and grants and additions to permanent endowments). "Other core revenues" include federal appropriations, sales and services of educational activities, other operating and nonoperating sources, and other revenues and additions.

Core revenues for private, not-for-profit institutions (and a small number of public institutions) reporting under FASB standards include tuition and fees; government (federal, state, and local) appropriations and grants/contracts; private gifts, grants and contracts (including contributions from affiliated entities); investment return; sales and services of educational activities; and other sources (a generated category of total revenues minus the sum of core and noncore categories on the Finance component). "Other core revenues" include government (federal, state, and local) appropriations, sales and services of educational activities, and other sources.

Core revenues for private, for-profit institutions reporting under FASB standards include tuition and fees; government (federal, state, and local) appropriations and grants/contracts; private grants/ contracts; investment income; sales and services of educational activities; and other sources (a generated category of total revenues minus the sum of core and noncore categories on the Finance component). "Other core revenues" include government (federal, state, and local) appropriations and other sources.

At degree-granting institutions, core revenues exclude revenues from auxiliary enterprises (e.g., bookstores and dormitories), hospitals, and independent operations. Non-degree-granting institutions do no report revenue from auxiliary enterprises in a separate category, and thus may include these amounts in the core revenues from other sources.

#### Core Expenses

Core expenses include expenses for instruction, research, public service, academic support, institutional support, student services, grant aid/scholarships and fellowships (net of discounts and allowances), and other functional expenses (a generated category of total expense minus the sum of core and noncore functions on the Finance component). Expenses for operation and maintenance of plant, depreciation, and interest are allocated to each of the other functions. Core expenses at degree-granting institutions exclude expenses for auxiliary enterprises (e.g., bookstores and dormitories), hospitals, and independent operations. Non-degree-granting institutions do not report expenses for auxiliary enterprises in a separate category and thus may include these amounts in the core expenses as other expenses. "Other core expenses" is the sum of grant aid/scholarships and fellowships and other expenses.

#### **Endowment Assets**

Endowment assets, for public institutions under GASB standards, and private, not-for-profit institutions under FASB standards, include gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations. Private, for-profit institutions under FASB do not hold or report endowment assets.

# Salaries and Wages

Salaries and wages for public institutions under GASB standards and private (not-for-profit and for-profit) institutions under FASB standards, include amounts paid as compensation for services to all employees regardless of the duration of service, and amounts made to or on behalf of an individual over and above that received in the for of a salary or wage.

#### Staff

#### FTE Staff

The full-time-equivalent (FTE) by occupational category is calculated by summing the total number of full-time staff and adding one-third of the total number of part-time staff. Graduate assistants are not included.

#### Equated Instructional Non-Medical Staff Salaries

Institutions reported the number of full-time nonmedical instructional staff and their salary outlays by academic rank, gender, and the number of months worked (9-, 10-, 11-, and 12-months). Salary outlays for staff who worked 10-, 11-, and 12-months were equated to 9-months of work by multiplying the outlays reported for 10-months by 0.90, the outlays reported for 11 months by 0.818, and the outlays reported for 12-months by 0.75. The equated 10-, 11-, and 12-outlays were then added to the outlays for instructional staff that worked 9-months to generate a total 9-month equated salary outlay. The total 9-month equated outlay was then divided by total number of instructional non-medical staff to

determine an equated 9-month average salary. This calculation was done for each academic rank. Salary outlays were not reported for staff that work less than 9-months and were excluded.

#### Student-to-Faculty Ratio

Institutions can provide their institution's student-to-faculty ratio (i.e., student-to-instructional staff) for undergraduate programs or follow the NCES guidance in calculating their student-to-faculty ratio, which is as follows: the number of FTE students (using Fall Enrollment survey data) divided by total FTE instructional staff (using the total Primarily instruction + Instruction/research/public service staff reported in Human Resources component and adding any not primarily instructional staff that are teaching a credit course). For this calculation, FTE for students is equal to the number of the full-time students plus one-third the number of part-time students; FTE for instructional staff is similarly calculated. Students in "stand-alone" graduate or professional programs (such as, medicine, law, veterinary, dentistry, social work, or public health) and instructional staff teaching in these programs are excluded from the FTE calculations.

#### Libraries

## Library Collections

Collections comprise of documents held locally and remote resources for which permanent or temporary access rights have been acquired. Degree-granting institutions with total library expenditures greater than zero and/or had access to a library collection reported their physical books, media, and serials collections and their digital/electronic books, media, serials and database collections.

Digital/electronic books and media are reported by titles owned or leased by the library if individual titles are cataloged and/or searchable through the library catalog or discovery system. E-serials are reported by titles that are accessible through the library's catalog or discovery system. Digital and Electronic databases are reported by the total number of licensed digital/electronic databases in the institutions collection if there is bibliographic or discovery access at the database level.

Counts in each category (i.e., physical books, media, and serials as well as digital/electronic books, media, serials, and databases) are the number of held at the end of the most recent fiscal year. The percent distribution of each resource is derived by dividing the counts in each category by the total of all categories.

# Library Expenditures

Library expenditures are funds expended by the library (regardless of when received) from its regular budget and from all other sources, reported for the most recent fiscal year. Salaries and wages are reported from the library budget or all other institutional sources that are identifiable. Fringe benefits are reported only if paid from the library budget. Degree-granting institutions with total library expenditures less than \$100,000 were not required to report their expenditures to IPEDS. The percent distribution of each category of expense is derived by dividing each expense ategory by the sum of total library expenditure.
