

LANGUAGE, HUMANITIES & EDUCATION

The Division of Language, Humanities and Education, located in Mitchell Hall, offers associate degrees (AA) that prepare graduates for transfer as juniors into bachelor's degree programs at universities. Students can major in the following programs:

- Pre-Elementary Education (AA)
- English (AA), Mass Communication (AA), or Speech-Drama (AA)
- Enterprise Development (AA)
- General Studies (AA)
- Health, Physical Education and Recreation (AS)
- Music (AA)

Division of Language, Humanities & Education

Pre-Elementary Education (A.A.)

The A.A. in Elementary Education is designed to outline the freshman and sophomore years of study for students who plan to transfer to a university to seek a degree in teacher education with certification for Pre–K through grade six. The requirements are set for this major by the Oklahoma Regents for Higher Education. The student who completes this program at Eastern with a 3.0 GPA or better may expect to be admitted to teacher training programs at regional or comprehensive universities.

Important note: certain sophomore–level courses in teacher education must be offered by a university with a teacher certification program and not by a two–year college. The student should consult an advisor about opportunities to take these courses while at Eastern from a four year university. See further explanation in the notes below.

Total for A. A. in Elementary Education	Minimum of 63-67 credit hours.	Students may choose to take additional hours to facilitate transfer or to meet career and personal needs.

Special Notes for Elementary Education:

- 1) **Preparation for Student Teaching.** In order to be prepared to enter student teaching immediately upon completion of the A.A., students are strongly advised to consider taking the appropriate teacher education (EDUC) courses from a university while they are still enrolled at Eastern. This will include Foundations of Education and a field experience course at all universities and one other supporting course that may vary by university. The courses can be arranged through other universities. Students should consult an advisor for details.
- 2) **Physical Education–Health–Wellness.** Some universities have a requirement for physical education or health or wellness in their general education and/or teacher education curricula. Students should consult their advisors and the catalogs of the universities to which they intend to transfer to determine appropriate courses, if any, to take at Eastern.

Division of Language, Humanities & Education English (A.A.)

The A.A. in English is designed to outline the freshman and sophomore years of study for students who plan to transfer to a university to major in English or related fields. This program gives those students an excellent foundation in English language and literature. The major is appropriate for those who plan to teach English, to pursue professional writing careers, or to use it as broad liberal arts preparation for professional training in law, business, or other fields. At Eastern students complete the first two years of the bachelor's degree.

Students seeking teacher certification in English (Language Arts) should pay careful attention to the notes accompanying the curriculum below. It is especially important for those students to achieve good grades (3.00 or better) and to acquire proficiency in a foreign language at the advanced elementary level.

Division of Language, Humanities & Education General Studies (A.A.)

Students majoring in General Studies are advised in the Division of Language, Humanities and Education, but students are not limited to course work or fields of emphasis in this division. The General Studies major is designed for the student who wants to tailor his or her course work to address particular educational, career, or personal goals. After completing the A.A., graduates may enter universities to major in general (interdisciplinary) studies. Students may also enter other majors, but additional lower-division courses may be needed.

Note about Teacher Certification: Students planning to seek certification in high school should pay careful attention to the curriculum notes regarding teacher certification. Teacher certification students should work closely with their advisors and consult the catalogs of the universities to which they intend to transfer. There is no certification field for “general studies,” but this major can provide a solid foundation for students who later choose a specific subject.

The A.S. in Health, Physical Education and Recreation (HPER) is designed to outline the freshman and sophomore years of study for students who plan to teach physical fitness, activities, and other health-related subjects such as weight control in the community and commercial gyms, YMCA's, community youth sport programs, and business fitness centers. The program, as annotated, will also prepare students to pursue teacher certification programs at universities.

University programs in HPER vary widely and often have several options or concentrations available. While at Eastern, students should work closely with advisors and check carefully the course requirements at the universities to which they plan to transfer.

Mass Communication (A.A.)

The A.A. in Mass Communication is designed to outline the freshman and sophomore years of study for students planning to major in Mass Communication or related fields. Mass Communication major is designed to provide students with a theoretical and practical understanding of Mass Communication. Emphasis is placed on the practical aspects of news-gathering, writing, editing, and design. All students are afforded the opportunity to gain hands-on experience through work with the award-winning *Eastern Statesman* newspaper and/or the *Mountaineer* yearbook. A.A. graduates will be prepared to complete their bachelor's degrees in Mass Communication at universities.

Note about Teacher Certification: Students planning to seek certification to teach Mass Communication and related language arts in high school should pay careful attention to the curriculum notes regarding teacher certification. Teacher certification students should work closely with their advisors and consult the catalogs of the universities to which they intend to transfer.

Students should consult their advisors and the catalogs of the universities to which they intend to transfer to determine appropriate courses, if any, to take at Eastern.

Division of Language, Humanities & Education Music (A.A.)

The A.A. in Music is designed to provide the freshman and sophomore years of study for students who plan to transfer to a university to major in music programs. Students may choose to emphasize vocal music, instrumental music, or piano. Music as a career is challenging and satisfying career whether one teaches, is in the music ministry, or works as a performer. Anyone who enjoyed music in high school, who likes to sing, or who plays a band instrument or the piano may find music an ideal profession. Students who plan to seek teacher certification as secondary school music teachers must show proficiency in a foreign language. At Eastern this is done by taking Spanish through the 1215 level.
