

SOCIAL SCIENCES & MUSIC

The Division of Social Sciences and Music, located in Mitchell Hall with offices also in Gunning and Baker Halls, offers associate degrees (AA and AS) that prepare graduates for transfer as juniors into bachelor's degree programs at universities. In addition, this Division has an AS degree program in Criminal Justice which is designed for either transfer or immediate employment in field. In addition, the Division has a degree (AA & AAS) and certificate programs in Child Development. Students can major in the following programs.

- Child Development (AA, AAS and certificate)
- Criminal Justice (AS) with transfer and COPS tracks
- History and Political Science (AA)
- Music (AA)
- Psychology and Sociology (AA)

Division of Social Sciences & Music

Child Development (A.A.)

The Associate in Arts in Child Development can be the next professional step for students who have completed the Certificate of Mastery in Child Development. (Note: student funding for enrollment in the A.A. may be available through the Child Development Scholars program.)

The A.A. in Child Development is designed to outline the freshman and sophomore years of study for students who plan to transfer to a university to major in child development or related fields. This degree plan will guide students toward a professional career working with children, youth and families. (Important note: This program is *not* designed for students who want to become elementary school teachers; they should pursue the A.A. in Elementary Education.)

Students should consult their advisors and the catalogs of the universities to which they intend to transfer to determine appropriate courses, if any, to take at Eastern.

Division of Social Sciences & Music Child Development (A.A.S.)

The Associate of Applied Science in Child Development consists of curriculum designed to prepare child development professionals. It can be the next step following the Certificate of Mastery in Child Development. The program prepares students for jobs in child development centers or other educational settings for young children. With electives in business, students are able to learn the key essentials of operating a child care center. The Associate of Applied Science is a terminal degree, which leads to immediate employment. Although the AAS is not primarily designed for transfer to bachelor's degree programs, the curriculum includes a significant number of transferable credit hours for students who decide to further their education.

Important Note: At the present time, enrollment in this program is not supported by Scholars in Child Development funding.

Total hours	69 hours

Special Information for students taking the COP Option:

The students majoring in Criminal Justice with the Collegiate Officer Program (COP) option are required to declare their intention with the COP Director who will at that time process the state required advisement with the students. Initiated through the COP Director, the COP student must request, at his or her own expense, a criminal history clearance from the Oklahoma State Bureau of Investigation and a local records check from their county of residence prior to attending skills training courses. Returns that indicate prior convictions for felony offenses or convictions for crimes of moral turpitude will preclude enrollment in skills training classes. The COP students are also required to complete and receive a satisfactory evaluation on the MMPI before enrolling in CRJS 2264—Firearms Training. Successful completion of all phases of the College Officer Program does not guarantee full-time employment as a peace officer. Students should be aware that employing agencies generally conduct in-depth, through background investigations on prospective employees.

Division of Social Sciences and Music History–Political Science (A.A.)

Division of Social Sciences and Music Music (A.A.)

The A.A. in Music is designed to provide the freshman and sophomore years of study for students who plan to transfer to a university to major in music programs. Students may choose to emphasize vocal music, instrumental music, or piano. Music as a career is challenging and satisfying career whether one teaches, is in the music ministry, or works as a performer. Anyone who enjoyed music in high school, who likes to sing, or who plays a band instrument or the piano may find music an ideal profession. Students who plan to seek teacher certification as secondary school music teachers must show proficiency in a foreign language. At Eastern this is done by taking Spanish through the 1215 level.

Division of Social Sciences and Music Psychology–Sociology (A.A.)

The A.A. in Psychology—Sociology is designed to outline the freshman and sophomore years of study for students who plan to transfer to universities to major in these and related behavioral science fields. Studying and understanding individual and group behavior and why people think, feel and act the way they do is the focus of Eastern's Psychology–Sociology major. The program emphasizes techniques of scientific inquiry and the contributions of psychological and sociological science to the well-being of society and its members. Students who plan to seek teacher certification should pay careful attention to the annotations.
