

Assessment Plan Guidelines:

Each Assessment Plan for Curricular and co-curricular activities clearly states student learning outcomes that align with EOSC's mission and general education goals.

Eastern Oklahoma College Mission Statement:

CULTIVATE GROWTH, CREATE FUTURES, and CHANGE LIVES

Academic learning outcomes should articulate what faculty members expect students to know and be able to do upon degree completion. Faculty and staff should identify the appropriate assessment plans to determine student achievement of those learning outcomes. Assessment plans should also describe how faculty members will use the assessment results to improve the program.
