

# How to Clear the Cache and Cookies in Your Web Browser

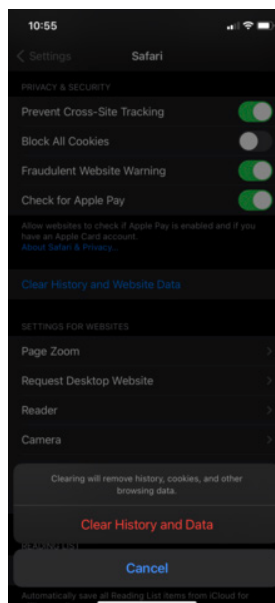

Safari for iOS

1. Go to the Settings app on your device.
2. Scroll down to the **Safari** menu.
3. Scroll down and select **Clear History and Website Data**.

4. A pop-up will come up verifying that you want to clear the History and Data. Select **Clear History and Data**.

5. The button for Clear History and Website Data will turn gray when cache and cookies have been successfully cleared.
